

“Opulence made Affordable”

Embrace the flow of water
Pure
Refreshing &
Endlessly blissful.

Excellence of Craftsmanship

Our craftsmanship embodies a commitment to quality, precision, and creativity. It reflects a profound understanding of materials and techniques, paired with a passion for intricate detailing. We transform the ordinary into the extraordinary, with each piece telling a story of dedication and skill. Rooted in patience, continuous learning, and an unwavering pursuit of excellence, At WATEUR, we celebrate individuality and the timeless beauty of human effort.

Design & Development

Our design and development processes are integral to transforming ideas into tangible realities. Product design goes beyond aesthetics, emphasizing creativity, functionality, and user experience. From brainstorming and sketching to prototyping, each step brings concepts to life with clarity and purpose, ensuring a seamless blend of form and function.

Our product development process brings designs to life through precise technical execution. It relies on collaboration, problem-solving, and iterative testing to ensure the final product aligns with design intentions while meeting user needs and expectations. The designed products and development create a cohesive journey from inspiration to implementation.

Foundry

Our foundry is equipped with a state-of-the-art electrical induction furnace, that uses electromagnetic induction to heat and melt metal. Renowned for its rapid heating capabilities, our furnace minimizes energy consumption while maximizing productivity.

To ensure low lead content in our products, we use brass ingots with a precisely defined composition.

Machining

Our advanced manufacturing process features a fleet of high-precision CNC machines that leverage computer numerical control (CNC) technology to deliver exceptional accuracy and repeatability. This cutting-edge technique enables precise cutting, shaping, and finishing of products with tolerances often measured in microns. It also enables the production of complex geometries that would be difficult, if not impossible, to achieve with traditional machining methods.

Tooling

Our high-precision tooling is a critical component of our manufacturing process, ensuring exceptional accuracy and quality. Engineered to meet stringent tolerances, these tools are often crafted from advanced materials to guarantee durability and optimal performance.

High-precision tooling not only elevates product quality but also optimizes production cycles, making it a cornerstone of modern manufacturing excellence.

LOW
MAINTENANCE

PERFECT
WATER FLOW

Faucet Technology

Cartridges

The heart of every faucet, the cartridge is responsible for controlling water supply.

- Wateur Cartridges are 2.5 lacs cycle tested to give a longer & trouble free operating life of upto 20 years (considering 25-30 operations per day)
- Wide angle of lever provides ultra comfort & flawless, smooth operation.
- Brass Spindle avoid breakage and ensure smooth operations
- Works smoothly even at high temperature (85 degrees) & Various pressure conditions (0.5-5 bar).

Aerators

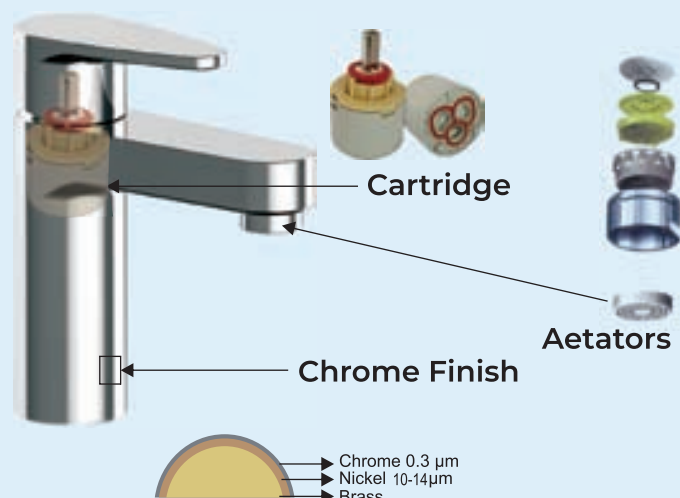

Devices that mix air with water to give a soft and splash-free flow

- Our integrated honeycomb structured aerator provides lime build up protection.
- Integrated anti-clogging dome screen of the aerator filters sediments and dust particles.

Chrome Finish

Upper shiny protection layer provides a mirror finish to every faucet.

- High plating thickness (Nickel: 10-14 microns & Chrome: 0.3 microns) provides tolerance to extreme climate and water conditions.
- 450 + hours of salt spray test makes our finishes durable and corrosion resistant.

Patent product

Super High Flow Diverter

Flow Rate

- 52 LTR $\pm$ 2 LTR Per Minute @ 3bar Pressure.
- Best Flow in Industry.
- Provides ultimate Showering Experience.
- Shot Blasted for fine look.
- Impregnated for Double Protection.
- Perfectly Designed.

Wateur ?

Introducing **WATEUR**, our new line of high-quality yet affordable faucets, designed to elevate both style and functionality in your home. Crafted with precision and built for durability, these faucets seamlessly blend modern design with long-lasting performance, offering exceptional value for your investment. Whether you are renovating your kitchen, upgrading your bathroom, or outfitting your dream home with luxurious taps and fittings, our collection provides a wide variety of styles to complement any space-without compromising on quality or exceeding your budget.

Browse our catalogue to discover the perfect faucet that meets your needs and enhances the beauty of your dream home.
